Task Completion Confirmation:
- Timo: None
- Sophia: None
- Brandon: None
- Allie: None
- Riley: None

Brainstorming Session:
- Timo crossed out Allie's old table statement because the tables didn't follow in the documents
- We finished the introduction and platform and printed the SQL statements
- Timo created a SQL script
- Timo added constraints to make sure the values were correct
- We need to identify the reports we said
- What we have in the database should be consistent from part 3 and on
- Timo printed the tables for the updated database
- Timo verify if we have everything else
- Timo will work on functionality testing
